

SACRED SOUL SPACE

"Beautiful imagery that
makes me want to
create!" -Margaret
Brown, graphic
designer.

Sacred Space

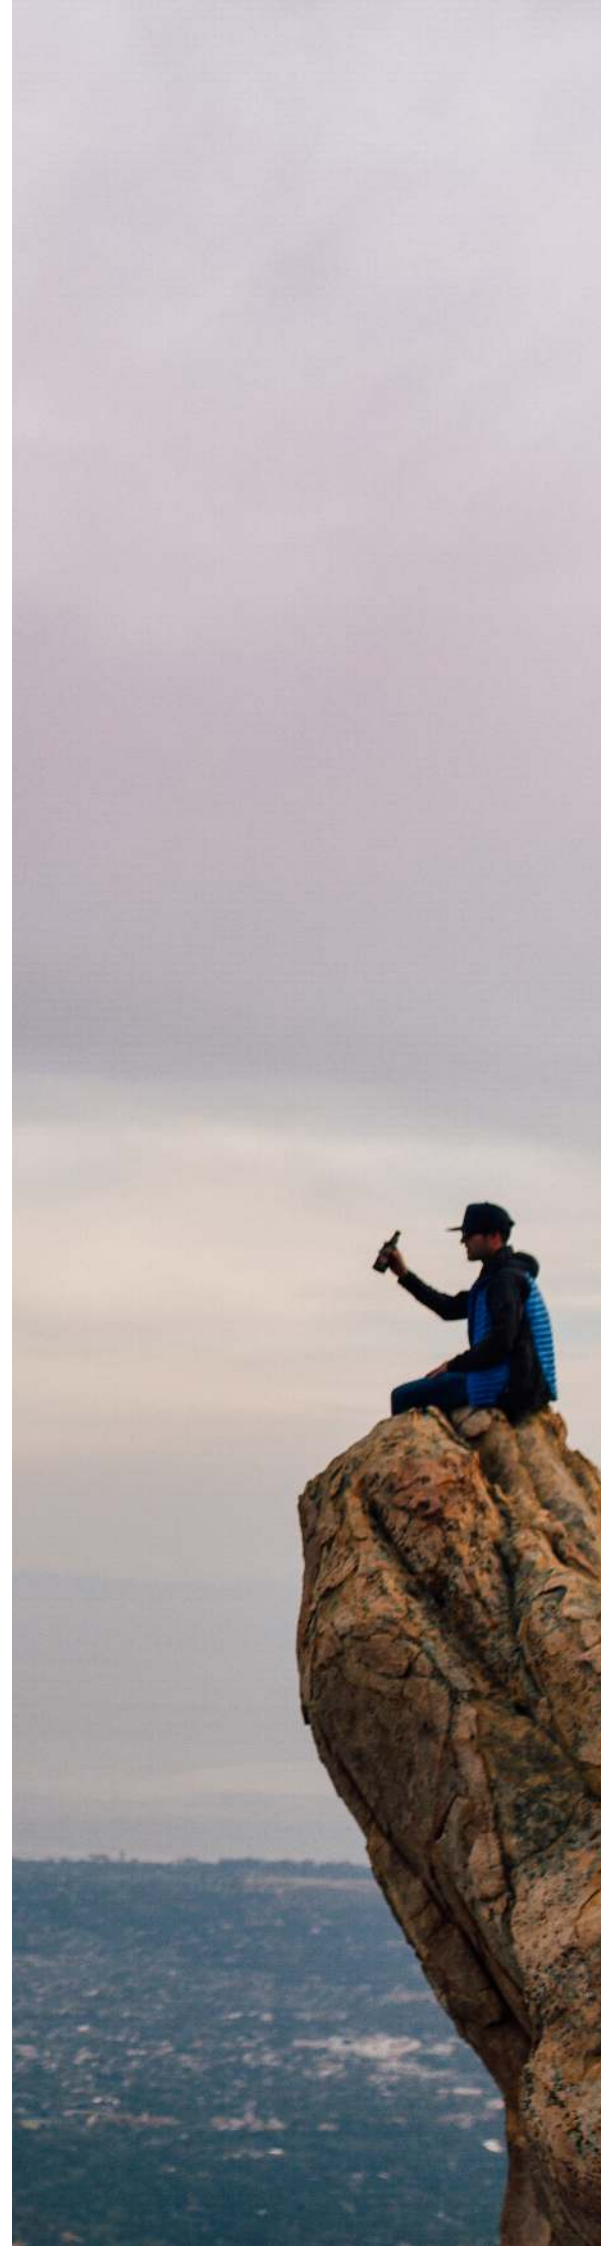

OPENING A SACRED
SOUL SPACE when
using any divination
tool, I recommend that
you create a sacred
soul space.

Sacred Space

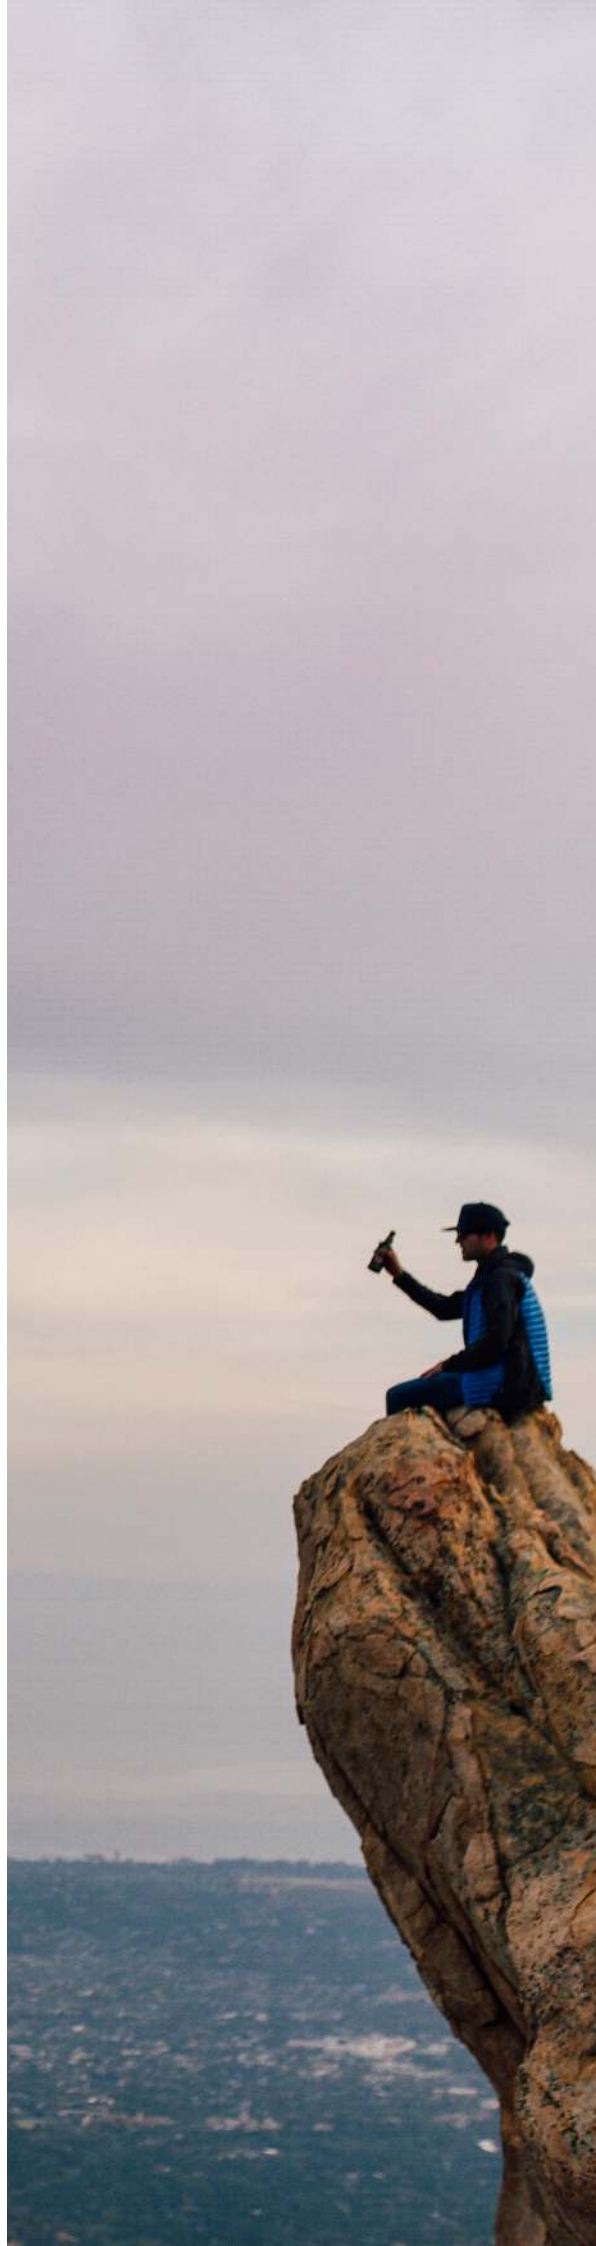

This doesn't have to be a big ritual or anything flamboyant as you may need to do this very quickly and in a public place.

Sacred Space

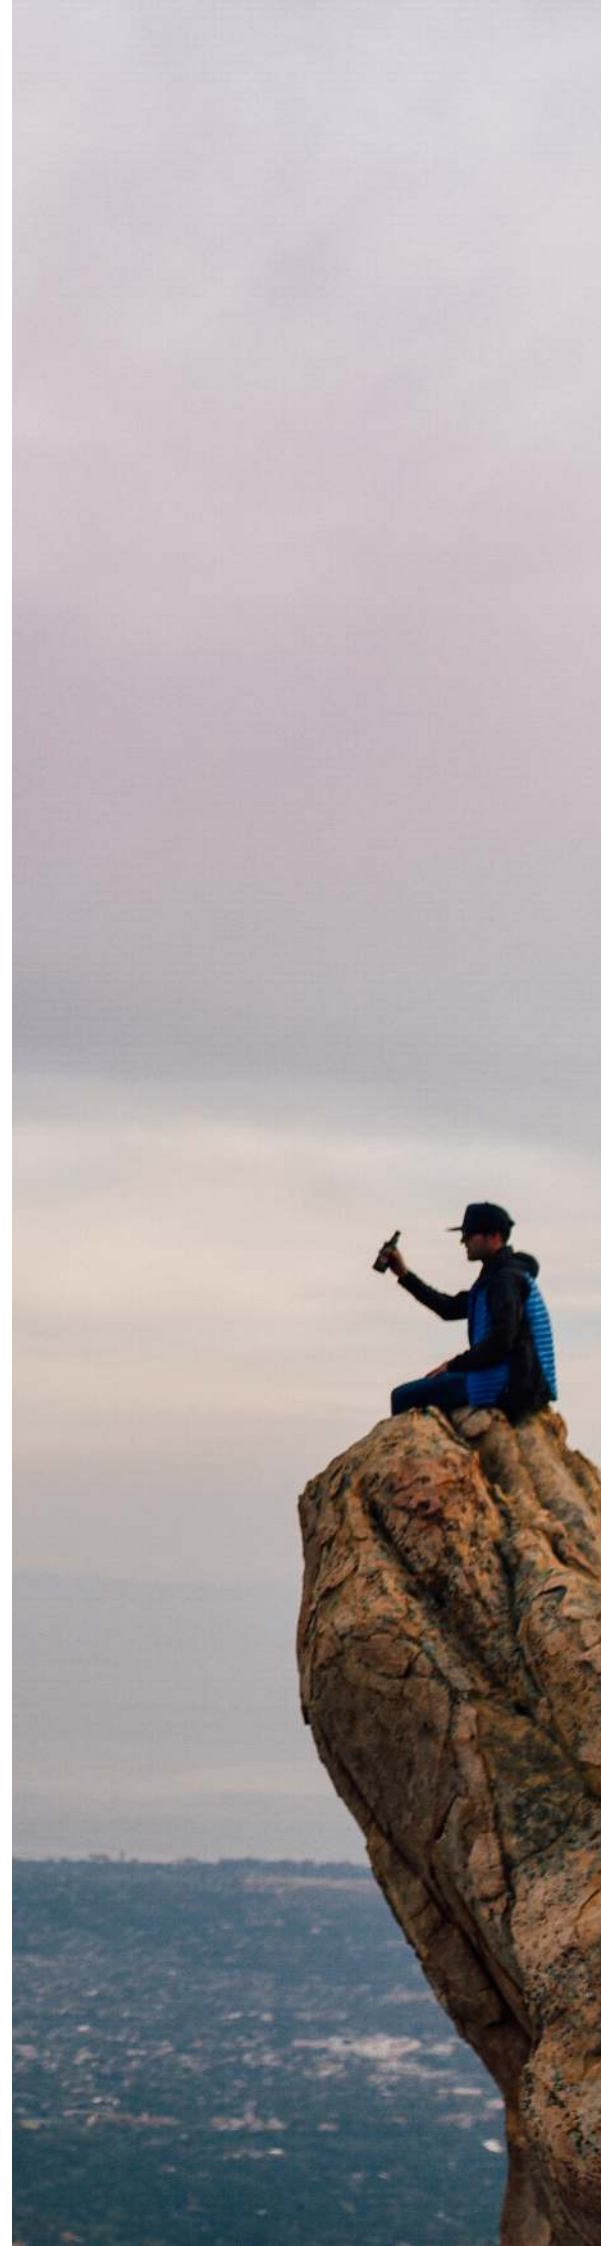

A sacred soul space is created from within you putting you into a specific 'state' of expansion and connection.

Sacred Space

You are opening up your
universal cosmic mind to
connect to the infinite
creative intelligence of
the universe.

Sacred Space

To open a sacred soul space, simply bring your awareness to your heart centre. This is your spiritual power centre.

Sacred Space

You heart has the
biggest
electromagnetic field
much stronger than
that of the brain
according to Heart
Math Institute.

Sacred Space

Your heart field should be in coherence, a free-flowing field of energy that spreads and influences your aura.

Sacred Space

Your thoughts and feelings are of the utmost importance as these create your field.

Sacred Space

For example, imagine going into your heart space and expanding your field thinking thoughts of hate and then picking up the pendulum to work on yourself or a client!

Sacred Space

Instead set the
intention to go into
your heart chakra,
take a breath inward
here, and imagine
your heart opening..

Sacred Space

I like to imagine a
beautiful soft pink
lotus blossom
opening in my heart
space and growing
bigger with every new
breath.

Sacred Space

This is your soul, your inner ancient self, the part of you that is connected to the Omnipotent wisdom of the Universe.

Sacred Space

Keep breathing and expanding until the sense of complete Oneness. Take a moment here to notice the subtle shift of energy that is created by activating this sacred soul space.
